

## **Northwest Premium Genetic Partners**

### **Premium Grid Partnership**

**“Partner for Profit with these Family Owned Operations”**

Beef Northwest Feeders, Thomas Angus Ranch, Harrell Hereford Ranch and Producers

### **Program Outline**

#### **Selling Cattle to Beef Northwest Feeders Through NPGP**

- ASV premiums are paid according to the NPGP grid based on % of partner bulls in the producer’s herd. Cattle must be less than 21 months of age at harvest.
- Producer must be an “approved supplier” in a Quality System Assessment (QSA) or Processed Verified Program (PVP) to be eligible for ASV payments. Beef Northwest Feeders can approve suppliers so they are eligible.
- ASV premium is paid when check is written for cattle.
- Forward contracting options for calves.

#### **Retaining Ownership at Beef Northwest Feeders**

- Cattle must grade at least 70% choice to be paid carcass premium.
  - Carcass premium is paid when cattle are closed out at feedlot.
- Individual carcass data cost is \$7.00/head.
  - Individual carcass data will be available when individual sires can be identified.
  - Thomas/Harrell will split cost with the producer depending on % of bulls in producer’s herd.
- Feedlot and carcass benchmarking will utilize CAB and Certified Hereford data for benchmarking.

#### **Replacement Heifer Premiums**

- Coming Attraction
